

GETTING TO ZERO

an innovative four-part series on net zero energy buildings

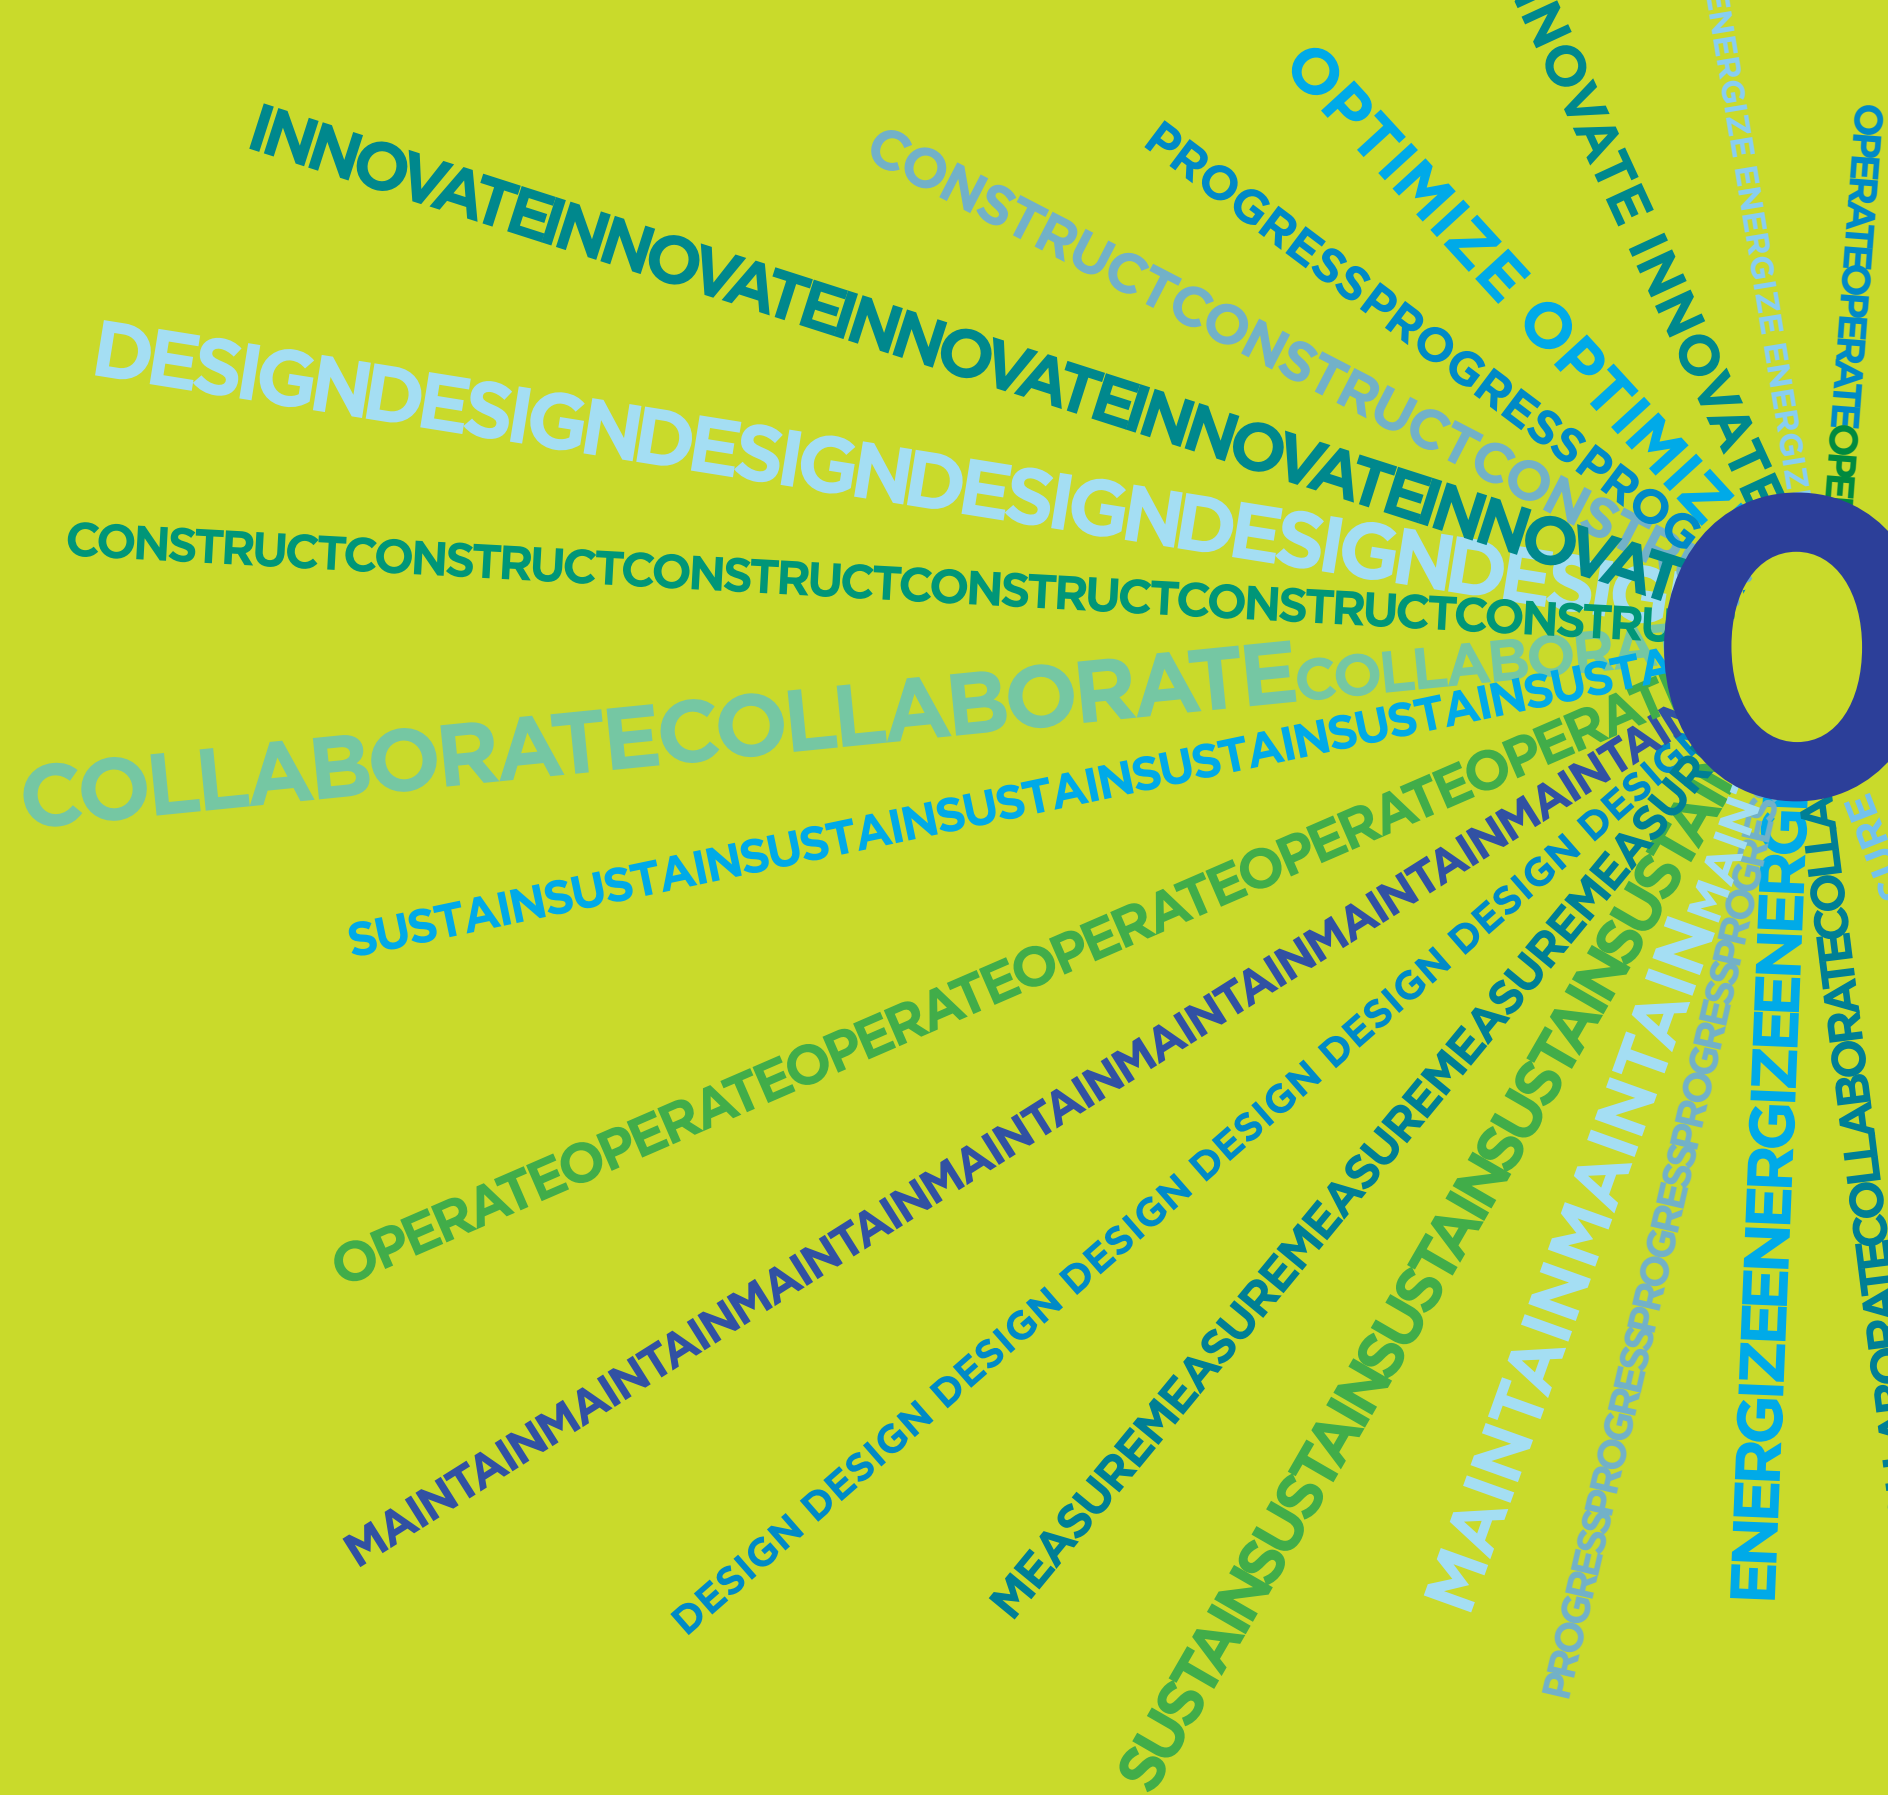

March 1 - April 5 - May 3 - June 7
1:00 pm - 5:00 pm at Dallas Center for Architecture
16 CEHs / 16 HSWs

Getting to Zero, a comprehensive, cutting-edge four-part series, builds on the success of the AIA+2030 series and will focus on leading participants through the next target of the 2030 Challenge - 70% reduction - and beyond. Through case studies, presentations, and panel discussions, participants will explore both the technical skills and cross-disciplinary approaches essential for net zero energy buildings, including:

- Market Realities & The Value Proposition
- Integrated Design & Process
- Building & Operating
- Long-Term Operations

For more information about the upcoming sessions and to register, visit www.aiadallas.org.

This series was made possible thanks to an AIA National Innovation Grant and AIA Seattle.

Thank you to our 2016 Getting to Zero sponsors:

Platinum Sponsor: Hossley Lighting • Gold Sponsors: Lutron • Thermomass • Sage Glass • Silver Sponsor: Walker Engineering • Bronze Sponsor: Syska Hennessy
In kind: Beck • Corgan
